NEAT CLUB ROOMS ATTACHED

The woman who is weak, nervous, tired and exhausted; who has a poor and variable appetite and no strength or nerve; who suffers from pains and aches, dragging down and burning sensations; and who recognizes, herself, that she has become irritable, cross, blue and despondent, is in almost every case suffering from weakness and disease of the delicate

and important organs that bear the burdens of maternity. Thousands of women suffer in this way and do not recognize the cause, or if they do understand their condition, neglect it rather than submit to the obnoxious examinations and local treatment insisted upon by the average physician. Dr. Pierce's Favorite Prescription is a wonderful medicine for women who suffer in this way. It does away with the necessity for these trying ordeals, and may be used in the privacy of the home. It acts directly on the delicate organs concerned, and makes them strong, vigorous and healthy. It banishes the discomforts of the expectant period and makes baby's advent easy and almost painless. It transforms weak, nervous, petulant invalids into happy wives and mothers. Thousands of women have testified, over their own signatures, to this fact: "The Favorite Prescription" may be procured from any good medicine dealer. Any woman who will write to Dr. R. V. Pierce, Buffalo, N. Y., may have the advice of an eminent and skillful specialist without charge. Mrs. Cora M. McLaurin, of Rockport, Copiah Co., Miss., writes: "I had displaced and inflammation of the uterus. I was under the treatment of our family physician for a long time, but received no benefit. I had falling of internal organs with ulceration and enlargement. I commenced using Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery,' 'Pleasant Pellets' and 'Extract of Smart-Weed.' From the first day I began to improve, and in a short time I was able to do all my household work. It had not been for your medicines I would have been dead long ago." Stomach and liver troubles with sluggish action of the bowels are cured by Doctor Pierce's Pleasant Pellets.

Free Medical Treatment for Weak Men

Who Are Willing to Pay When Convinced of Cure.

A scientific combined medical and mechanical cure has been discovered for "Weakness of Men." Its success has been so startling that the proprietors now announce that they will send it on trial—remedies and appliances—without advance payment—in any honest man. If not all that is claimed—all you wish—send it back—that ends it—pay nothing! No such offer was ever made in good faith before: we believe no other remedy would stand such a test. This combined treatment cures quickly, thoroughly and forever all effects of early evil habits, later excesses, overwork, worry, etc. It creates health, strength, vitality, sustaining powers and restores weak and undeveloped portions to natural dimensions and functions. Any man writing in earnest will receive description, particulars and references in a plain sealed envelope. Professional confidence. No deception nor imposition of any nature. A national reputation.

COMMISSIONER POWDERLY'S REPORT.

The report of T. V. Powderly, National Commissioner of Immigration, for the past year shows that 229,290 immigrants came into the United States for that period. Of these 43,067, being over 14 years of age, could neither read nor write. The countries furnishing the largest number rank as follows: Italy, Russia, Ireland, Germany, Austria-Hungary, Sweden, England. About one fifth were laborers, the exact number being 52,531. Servants numbered 23,656, farmers 16,243, and very many trades in varying proportions.

Commissioner Powderly recommends several changes in the immigration laws looking to a protection of the country from undesirable immigrants, particularly those afflicted with disease. He believes that loose laws carelessly enforced admit many classes of immigrants who have no business here, and who not only burden American hospitals and American charities, but are a menace to the free institutions of the country. He also criticises the manner in which our naturalization laws are abused.

Commissioner Powderly has always been in favor of restricting immigration, believing that the opening of our doors to all classes of immigrants bore a close relation to the labor question. In this opinion he is quite correct, and his report vindicates the position. For the past five years ordinary labor, and in too many cases skilled labor, has found it impossible to obtain steady employment. Thousands of laborers have only barely subsisted. But during the past twelve months the number of laborers has been increased by over 52,000 from Europe, and without any increase in the demand for labor.

SULTZER'S PLOTTING WON.

Mr. Sultzer's election in the Eleventh by a majority of more than 8,000 gives gratifying assurance that courage and plain-speaking are still valuable qualities in New York politics.

Nominated by a convention which frankly reaffirmed the Chicago platform, Mr. Sultzer made his canvass on national issues. Not for a moment did he evade any political question which sprung from the declaration of principles of 1896. He will go to a House of Representatives in which the majority will be men who stand as he stands, for a fixed code of principles, and who have courageously defended them on the stump. Moreover, he will go to Washington with the prestige of having been given a bigger majority by New York City voters than was any man who thought it "good politics" to dodge every issue upon which a Representative in Congress is likely to have to vote.

That is worth taking risks for. It would have been worth the risk even had the prize not been won, for a good fight, well fought, is honor in itself.—*New York Journal.*

Here in Colorado there was no shirking the silver question. It was pushed to the front by the friends of silver and kept there. The result is a State ticket elected by twice the majority ever before given to a State ticket. The moral is plain. Silver must be made the great issue of 1900. Bryan must be nominated by a rising vote. With bimetalism on the flag carried by our patriot leader, silver will as surely win as the battle of 1900 will be fought.—*Denver News.*

NEW WARSHIPS.

A statement prepared by Commodore Hitchborn, Chief of the Construction Bureau, shows that on November 1st the Navy Department had on construction in various parts of the country fifty-five vessels, a larger number than ever undertaken before in the history of the country. There are eight battleships, and of these the Kearsarge at Newport News had advanced 71 per cent. towards completion, while her sister ship, the Kentucky, has a percentage of 69. The Illinois is 57 per cent., the Alabama, at Cramps, 55, and the Wisconsin, at the Union Iron Works, 52 per cent. complete. The slooped cruiser Albany, which the United States bought on the stocks of England, is exactly half finished. Twenty-two torpedo boats contracted for show percentages of completion ranging from nothing to 99 per cent.

THE LEGISLATURE.

The Silver party elected 30 members of the Legislature. Two Silver Democrats are elected who will undoubtedly act with the Silver party. The Republicans elected 13 members and two of their seats are contested. The Silver party in its State and county conventions endorsed Senator Stewart for U. S. Senator, and he will without doubt have two-thirds majority in the Legislature, which is composed of 45 members on joint ballot. It is not publicly known how the Republicans will vote on U. S. Senator. No Silver party man is running against Stewart and no straight-out Republican is seeking the Republican vote. It may be that Stewart, having a two-thirds majority, the Republicans will vote for him as they did in 1893 when he was unanimously re-elected.—*Appeal.*

Howell's plurality in the State is 1,000 over the Republican and 1,900 over the Democratic nominee.

WAR TAX TO CONTINUE.

The Washington Post says that the war tax will not be abolished at the coming short session of Congress, and that there will be no revision of the tariff whatever. It bases the announcement upon the positive statement made by Chairman Dingley of the Ways and Means Committee, who, in an interview says:

"The Government will need for some time all the revenue produced by the war taxes. During the month of October the war expenditures exceeded the war revenues by some \$14,000,000, and this month they will be \$10,000,000 in excess. This being the case there will be no changes at least this fiscal year. The War Revenue Act will continue in force and unchanged, except, perhaps, in a few minor administrative features, for at least a year longer."

"It is hardly necessary to add that there will be no revision of the tariff, although I have seen some statements to the effect that such a revision is contemplated."

TELEGRAPHIC NOTES.

Major General Wm. M. Graham is seriously ill at Fort Hamilton, New York. General Graham was for several years Commander of the Department of the Gulf and was in command of Camp Alger during the summer.

E. F. Cragin of Chicago who engineered the purchase of the concession for the building of the Nicaragua canal in the interest of the Grace syndicate says the syndicate which he represents has full control of the building of the inter-ocean canal and that the old grant has been cancelled.

The official returns as far as the count has proceeded in South Dakota insures the election of the whole Republican State ticket, with the possible exception of Governor. Woman suffrage has been defeated and the dispensary amendment will probably not carry while the initiative and referendum will carry by a vote of two to one.

The Spanish Commissioners presented a long document in answer to the argument of the American Commission submitted last week. By mutual consent the meeting adjourned until Saturday next, in order that the communication could be translated and its contents discussed at the daily sessions of the American Commissioners.

Emperor William will visit Port Mahon, Island of Minorca, next Friday and will reach Cadiz on Sunday. The Spanish Government has been so advised. His majesty will observe the strictest incognito. No salutes other than an exchange of the usual naval honors will be permitted.

The transports Ohio and Indiana arrived at Honolulu on the 5th and the Zealandia arrived on the 7th with the Tennessee Regiment. The transport Indiana carried a woman stowaway. She gives the name of Sadie White and went aboard in a soldier's uniform and was not discovered until the third day out.

General Wesley Merritt, U. S. A., who is in London and who has read with much interest the long letter of complaint against American officials from the Filipino Junta of Hong Kong to President McKinley and the people, says the Filipinos are children and it will be impossible to establish American government in the islands. He says they must have some form of Colonial government similar to the form of Colonial government of Great Britain.

Remarkable activity around the War Department has been noticeable for several days in the way of preparing troops for service in lands beyond the United States. An order directing at least ten regiments of the regular army now stationed at northwestern forts and posts to hold themselves in readiness for immediate transportation and service in tropical climates. It is believed that an early movement to Cuba is intended, somewhat sooner than has been generally believed heretofore. Another belief entertained is that the United States desires to be in a position to meet any conditions that may arise out of the pending peace negotiation and to be ready to resume hostilities if Spain refuses to come to terms.

MAJOR GENERAL MARIAN is quoted as saying: "It would not surprise me to see that the negotiations between the United States and Spain had been broken off. If the work of the commission proves fruitless, it means a renewal of the war. If Spain refuses to accede to our demands, it will show that she has secured substantial hope of assistance or European intervention. Should Germany take a hand in the matter, England would follow suit, and then I look for France to put her finger in the pie."

Jack Tar at a Christening.

A sailor went up to the font to have his baby baptized. Sailors as a class claim little stock in babies, and, naturally enough, this one presented the infant first foremost.

"The other way," said the minister, and accordingly, Jack turned the infant upside down.

"Excuse me," said the clergyman, "I mean the other way." So back came the embryo foretopman to the first position, to the discouragement of everybody.

"Wind it, Jack," said the nautical assistant, and with an "Aye, aye, sir," Jack promptly turned the baby end for end, and it was duly christened head first.—"On a Man-of-war."

Growing Old.

He—Carnie, you don't seem to care so much for me as you did when we were first married.

She—As for that matter, I don't think so much of you as I did when I got it just before Easter.—*Boston*

Entertaining the Copper.

It was a bitter cold night, and a night policeman in Lombard street noticed a light in the bank window, and, going to the door, rapped.

"Is that you, policeman?" asked a voice from within.

"Yes," was the reply.

"Come in and have a drink," said the voice.

The policeman stepped inside and encountered a dapper little fellow sitting at a desk.

"I've been detained tonight straightening up accounts."

The policeman warmed himself at the rousing fire that blazed on the hearth and went out again on his beat. An hour after the policeman came that way and, still seeing the light through the window, rapped again.

"Is that you, policeman?"

"Yes."

"Come in and warm yourself."

The policeman accepted the invitation.

"It's a howling cold night," said the clerk.

"You're right, sir," said the policeman.

So he got another drink and returned to his beat. He was rather surprised next day to find that his friend of the night before had got off with some \$50,000 of the bank's funds.—*London Success.*

The Boston of It.

"You would be pretty," persisted the other, "if you didn't know it yourself."

The gorgeous Boston creature shook her head. "I can know nothing," she argued. "I have mental impressions, but they do not establish external fact. Externality is a figment of subjectivity. Ergo, I do not know I am pretty, quod erat demonstrandum."

Classical subtleties, doubtless, but not easily to be swept away for all that.—*Detroit Journal.*

A Narrow Escape.

"Ah, no!" she sighed. "There is nothing new under the sun."

He felt around for the mustache he thought he was raising and turned a beseeching look upon her.

"Of course," she went on, "that can't be classed as new. It looks several weeks old at least."

For a moment, however, she thought she had permitted the Coopelethwaite millions to get away.—*Indianapolis Journal.*

Freedom From a Terrible Slavery.

At last, I am thankful to say, the spem is dead. No longer shall my soul be corroded by the thought that I ought to be in my stall and am not. No longer when I am in my stall shall I write in anger to think of the stupidity of wasting my time so.—*London Saturday Review.*

Both Satisfied.

Hicks—Wheeler and Brassey met for the first time yesterday, and they got on together famously. They kept up their talk until late in the evening.

Wicks—What were they talking about?

Hicks—Bicycles and golf.

Wicks—But Wheeler doesn't know the first thing about golf.

Hicks—Neither does Brassey know anything about bicycling. But that makes no difference. Each kept it up on his favorite topic without listening to the other.—*Boston Transcript.*

BALLOT RECOUNT COMPLETED.

McCullough Gains Five Votes, But a Number Under Protest.

The recount of ballots cast for Colonel E. D. Boyle and J. S. McCullough, candidates for State Senator at the late election, began in earnest this morning by the County Commissioners. F. P. Langzan represented Colonel Boyle and W. E. Winnie Mr. McCullough as attorneys. John Irvine acted as tally clerk for Colonel Boyle and Harry Sutherland for McCullough. The recount was completed at 3 P. M.

In the wards of the city McCullough gained five votes over his opponent including protested ballots. In Gold Hill the count tallied with that made by the clerks at the polls. In that precinct thirteen blank ballots were cast and others were objected to. The result of the recount depends upon the decision as to the legality of these ballots.

Snap shots taken on the vote for Governor resulted in a gain of eight for Sadler over the returns of the tally clerks at the polls. Wm. Semenza, candidate for County Commissioner also gained over his opponents six votes, and Tom Henry, candidate for the Assembly, gained eleven votes.

The result of the recount goes from here to the Secretary of State and he turns the count over to the State Senate, a committee of which will be appointed to inspect the returns of the recount.—Chronicle.

The Silver Party.

The Silver Party has just won a magnificent victory. The result of the election has demonstrated the power, strength and prevailing influence of the silver cause. With four State tickets in the field, representing every political party, the Silver Party of Nevada polled a handsome majority over all.

The re-election of Senator Stewart as his own successor is assured beyond a reasonable doubt. There is a good working Silver Party majority in each branch of the Legislature and the two Democrats will, no doubt, co-operate with the Silver Party and vote for Stewart's re-election.

Nevada has remained steadfast to the old silver champion, notwithstanding the calumnious and malicious attacks made upon him by the goldites. Nevada and Colorado are proud of Stewart and Teller and well they may be, for both of them have served their people and States faithfully, conscientiously and honorably.—Appeal.

A Good Example for Other Parts of the State to Follow.

The incorporation of the farmers of Carson Valley last Saturday into a water storage company is the result of a long felt and a distressing need for a greater water supply. It is a move in the right direction, and if handled with the same business acumen that has characterized the building up of the Creamery company, portends such a speedy development of the Carson Valley as even its best wishers could not have hoped for. Every thousand acre feet of stored water in the Alpine water shed, means \$15,000 more of taxable property to this country and every acre of arid land so reclaimed means a great deal to the State. For every acre of land irrigated in Carson Valley, by stored water, other portions of Nevada in emulating the enterprising example of Carson Valley will reclaim fifty acres, it is safe to say.—Record.

Indications of Preparations for a Train Robbery.

Evidence was found near Humboldt House a few nights ago which indicated a plan to hold up a train. The project, however, seemed to have been abandoned on account of the blockade. A quartette of suspicious looking characters were observed at the Humboldt House, and officers were called. Nothing has as yet developed but it is said a tough gang is operating along the line of the road.

Payment of Taxes.

Any person charged with taxes on real estate and personal property according to existing law may, at his option, pay the full amount thereof on or before the first Monday in December, 1898; but if he shall pay one-half of such taxes, as the same shall appear on the assessment roll taxed against him, on or before the first Monday in January, 1899, then in such case the remaining half of such taxes shall not become delinquent prior to the first Monday in June, 1899; but if such person shall fail to pay the first half of said taxes, as herein provided, then the entire tax shall become due and shall be collected as provided by law, and all taxes of which the first half shall not be paid on or before the first Monday in December, 1898, shall be subject to have added thereto a penalty of ten per cent together with \$1.25 for Auditor's certificate, and \$2 for advertising, and all taxes of the preceding year which remain due and unpaid up to the first Monday in June, 1899, shall be subject to, and there shall be added thereto, a like penalty with costs as before stated.

Cattle From Nevada.

Cattle shipments continue to be a feature of the railroad business. A. R. Wright and George Elmore of Nevada came to Salt Lake yesterday with 500 head of steers which will be taken as far east as the Missouri river at least. The cattle were loaded at Halleck station and were raised in and about Ruby Valley, Nev., which is rapidly gaining fame as a great stock district. Several big shipments prior to this have been made this fall from Ruby Valley. Mr. Wright reports that Nevada cattlemen generally have had a very prosperous year. Prices have been good and the demand for cattle has been fair. Ranchers have been quite successful with their hay crops, and have sufficient feed on hand to keep their stock until next spring, so there will be no necessity for them forcing the market.—Salt Lake Tribune.

When Umbrellas Were First Used.

The introduction of the umbrella in some places has been regarded of sufficient importance to be included in the local annals. About 1780 a red Leghorn umbrella was introduced into Bristol, and it created quite a sensation in the city. It was about the same period that an umbrella was first carried in the streets of Stamford, Lincolnshire. It was of Chinese manufacture and was brought to Stamford from Glasgow. Mrs. Stockdale, in 1778, is recorded to have brought from the island of Granada, in the West Indies, the first umbrella seen in Carmarthen, Lancashire.

In 1779 Dr. Spens, a popular physician, carried an umbrella in the streets of Edinburgh, and he is credited with introducing it into the Scottish capital. John Jamieson, a Glasgow surgeon, visited Paris about 1781 or 1783 and brought back with him an umbrella, which was the first seen in Glasgow, where it attracted unusual attention. William Symington was the first person to carry an umbrella in Paisley.

It is related by Horace Walpole in his account of the punishment of Dr. Shebberere for libel, Dec. 5, 1758, that when he was in the pillory a footman held over him an umbrella to keep off the rain. This has been described as an aristocratic style of bearing punishment. The undersheriff got into trouble for permitting the indulgence.—Fireside.

Not Disposed to Delay Him.
